THE WESTMINSTER INSTITUTE
FOR NATIONAL SECURITY

**FOR RISING HIGH SCHOOL
JUNIORS AND SENIORS**

JULY 19-22, 2015

WESTMINSTER
COLLEGE

**FIGHT TERRORISM.
ESTABLISH POST-WAR PEACE.
BRING JUSTICE.
ANALYZE INTELLIGENCE.
BUILD CYBER-SECURITY.**

How will you
save the world?

The Westminster Institute for National Security (WINS) is an intensive, two-day, three-night experience for high school students. Through WINS, students explore, confront, and challenge the global security issues facing our nation and world today.

Gain knowledge and expert perspective – through analysis, discussion and debate, and challenging, hands-on problem-solving, role-playing and games – to serve you as you prepare for college and consider your future career.

Daily Schedule

Each morning and afternoon, you'll tackle a new area of security study – delving into four major areas in all.

Every evening, expand on the day's issues through small group discussions and bonus activities, such as analysis of terrorism represented in popular movies.

4 Areas of Study to Challenge You

IN THE SHADOW OF TERROR: THE CAUSES AND CONSEQUENCES OF 9/11

Discover complex dynamics surrounding the causes and consequences of the terrorist attacks on the United States on September 11, 2001. In this session, students will scrutinize the actions and decision-making of U.S. lawmakers in the immediate aftermath of the attacks and consider the impact of 9/11 on domestic politics, society, and culture.

EXPLORING CYBERSECURITY

Students will choose from a variety of interactive activities to explore cybersecurity – vulnerabilities and opportunities. Create a cybersecurity context map, and identify breaches. Encrypt data, and crack code. Investigate computer forensics, and discover how to protect your own data online.

WHAT COMES AFTER WAR? DEMANDING JUSTICE, BUILDING PEACE

As a conflict comes to an end, societies face important questions about how to deal with the human rights abuses that occurred during the war. In order to plan for a stable post-war peace, students will play different roles in a conflict resolution simulation with an emphasis on making decisions about how to balance demands for justice and reconciliation.

Advanced Technical Intelligence Center
FOR HUMAN CAPITAL DEVELOPMENT

ADVANCED TECHNICAL INTELLIGENCE CENTER

Westminster College is one of a select group of colleges and universities with an established partnership with the Advanced Technical Intelligence Center. ATIC's primary mission is to develop a workforce of appropriately cleared government and contractor personnel capable of generating actionable information from technical intelligence systems.
